Honda's first production V6 was the C series; it was produced in displacements from 2.0 to 3.5 liters.The C engine was produced in various forms for over 20 years (1985–2005), having first been used in the KA series Legend model, and its British sister car the Rover 800-series (and Sterling).. All C engines share in common a 90-degree V from bank to bank and common cylinder block bore centers.
