Open Source

MapGuide Open Source is a web-based

Online Library Autodesk Mapguide Open Source

map-making platform that enables users to quickly develop and deploy web mapping applications and geospatial web services. The application was introduced as open-source by Autodesk in November 2005, and the code was contributed to the Open Source Geospatial Foundation in March 2006 under the GNU LGPL.

About | MapGuide Open Source

now, in MapGuide Open Source there is

Page 13/30

Online Library Autodesk Mapguide Open Source

only support for SDF+ and Shape file datasources. You can pretty much guarantee that you'll see support for the other formats as time goes on, especially with the commercial release of MapGuide Enterprise. Andy wrote in message news:5111934@discussion.autodesk.com..
