This installation requires heavy Gauge wiring connection to the car's ignition key switch. Soldering is mandatory here. I have attached the complete installation guide for the Avital 5303L. The installation I performed did not include wiring of the door lock or door switches circuits since these were already wired to the existing viper alarm.

Security works the same way: when you arm or disarm your system, you will receive confirmation on the 2-way remote, and if your siren sounds the remote will beep or vibrate to let you know ...

Avital 2-Way LCD Remote Start with Security Works as advertised. Download the installation manual and follow it meticulously. My install involved 2 Starter wires, so be aware of that. Also, you aren't splicing into these starter wires, like the other connections, but cutting the starter wires and installing the remote starters wires in between the key side and the starter side of the cut starter wires.
