The 1940s opened with the entry of the United States into World War II with the bombing of Pearl Harbor (1941) and ended with the establishment of NATO (1949), and the global perspective that resulted from these events had a real influence on the literature of the time.. Throughout the decade, authors and playwrights from Great Britain and France were as popular as American authors and ...

Glycogen storage disease type 1 is an inherited disorder caused by the buildup of a complex sugar called glycogen in the body's cells. The accumulation of glycogen in certain organs and tissues, especially the liver, kidneys, and small intestines, impairs their ability to function normally. Researchers have described two types of glycogen storage disease type 1, which differ in their signs and ...
