A corporate financial strategy determines how a business survives. For a business to maintain autonomy, it needs funding. The funding can come from a variety of places, including sales and services, as well as investors and donors. Using its finances wisely is the best corporate financial strategy in terms of maintaining sustainability.

Corporate Strategy takes a portfolio approach to strategic decision making by looking across all of a firm's businesses to determine how to create the most value. In order to develop a corporate strategy, firms must look at how the various business they own fit together, how they impact each other, and how the parent company is structured, in order to optimize human capital, processes, and governance.
