tes. The Diabetes Food Guide Pyramid places starchy vegetables such as peas, corn, potatoes, sweet potatoes, winter squash, and beans at the bottom of the pyramid, with grains. These foods are similar in carbohydrate content to grains. Cheese is in the Meat and Others group instead of the Milk group because cheese has little carbohydrate content and is similar in protein and fat con-tent to meat. Choosing foods from the Diabetes Food Guide Pyramid can help you

~~Diabetes Food Guide Pyramid NUTRITION SERIES~~

In the traditional pyramid, milk and cheese are both contained in the dairy category, whereas in the Diabetes Food Pyramid, cheese is a protein and included in meat, and the milk group contains carbohydrate-containing foods, such as milk and yogurt, Kirpitch says. Starchy and non-starchy vegetables are also separated accordingly.

Nothing is off limits per se if you have gestational diabetes, but some foods will better help control blood sugar than others. Because refined grains like white pasta, white rice, white bread, crackers and tortillas will spike blood sugar quicker than their whole-grain counterparts, choose the whole-grain options more often.
