In the 1950s, Ford introduced a three-tier approach to engines, with small, mid-sized, and larger engines aimed at different markets. All of Ford's mainstream V8 engines were replaced by the overhead cam Modular family in the 1990s and the company introduced a new large architecture, the Boss family , for 2010.

In the 1950s, Ford introduced a three-tier approach to engines, with small, mid-sized, and big block engines aimed at different markets. All of Ford's mainstream V8 engines were replaced by the overhead cam Modular family in the 1990s, however the company is expected to introduce a new larger family, the Boss/Hurricane , by the end of the decade.
