Outer Planet Guided And Study Answer Key

Various aspects of this feasibility study warrant continued discussion. First, expertise in US-guided intervention is subject to a detailed understanding of the underlying anatomy. In a 2014 survey of pain fellowship program directors, only 48.8% of fellowships required fellows to learn US-guided intervention before graduation . Lack of adequate US training among pain fellows and future pain physicians could lead to a protracted learning curve to employ this technique on a wide scale.
