Concept Mapping Answer
Key

The question for philosophers of biology is whether an analysis of the concept of information can capture the various ways in which the concept is used in molecular biology (e.g., Maynard Smith 2000).

Molecular Biology (Stanford

Encyclopedia of Philosophy)

Spatial association is the degree to which things are similarly arranged in space.

Analysis of the distribution patterns of two phenomena is done by map overlay. If the distributions are similar, then the spatial association is strong, and vice versa. In a Geographic Information System, the
