While trying to decide on a power washer I went to two of the big chain hardware stores and looked at power washers they had on hand. I was looking at the craftsmanship, features and materials the various units were made from. 1) One of the first things that attracted me to this unit was the Honda engine.

The pressure washer was delivered in protective packaging in perfect condition. There was a little assembly required that was easy to finish. The Honda engine starts easily and runs smoothly. I use the pressure washer around my house to clean my composite deck, cement patio around my pool, cement garage floor, and brick sidewalk.

This Yamaha pressure washer surface cleaner is often included in pressure washer surface cleaner attachment reviews. And we can understand why. The performance alone is already impressive. This can be easily attached to pressure washer units that have Honda GCV190 engine and a maximum water pressure of 3200 psi.
