## Community

One of the main goals of JasperReports Server is to expose a set of reusable application programming interfaces (APIs) that are easy to understand, extend, and customize. This facilitates adapting JasperReports

# Read PDF Jasperreports Ultimate Guide

Server to the unique requirements of different deployments. We provides two types of APIs.

JasperReports Library.

JasperReports is a open source  
Java based reporting tool. The

# Read PDF Jasperreports Ultimate Guide

JasperReports Library can be downloaded from the Jaspersoft Community for the latest release. In recent releases the third-party jars in the lib folder are not distributed, they need to be download from public repositories, see distributed pom.xml for

# Read PDF Jasperreports Ultimate Guide

dependencies. Maven can be used to retrieve all dependencies including the transient ones in the target/dependence folder.

~~jasper-reports-Getting started  
with jasper-reports ...~~

The HTTP interface provides an

# Read PDF Jasperreports Ultimate Guide

easy way to implement the API for accessing repository objects.

However, the HTTP interface can't be embedded the way the web services and Visualize.js APIs can be in non-Jaspersoft applications. Rather, the HTTP interface is used primarily as shortcuts or entry
