The D2676 LE13x in-line six-cylinder engine made by MAN is the new benchmark for powering forage harvesters, combine harvesters and tractors. High flexibility in the widest range of applications as well as appreciably high efficiency convince machinery manufacturers and end users of the quality of the compact power pack.

MAN 6-cylinder D2676 LE13x engine - MAN Truck & Bus

The new D2676 marine engine developed by MAN is based on the D26 engine, which has proven its worth in heavy-duty vehicles, and provides an optimal, compact, low-consumption engine with a low performance weight for use in boats. It not only meets the current exhaust gas standards, but is also equipped for future exhaust gas legislation.

MAN D26 marine engine | Interesting Facts | MAN Engines

The new D2676 engines also offer the wide torque plateau that is characteristic for MAN marine engines. The 323 kW (440 hp) power unit provides 1,950 Nm of torque between 1,200 and 1,600 rpm for heavy operations, while the 588 kW (800 hp) high-performance model manages to generate 2,700 Nm between 1,200 and 2,100 rpm for light operations.

MAN inline six-cylinder engines for work boats | MAN Engines

The first MAN D2676 LE443 engine that came off the production line is now intended for use in the new LT32 Gilnetter (salmon fishing boat), built by Mavrik Marine. The boatyard located in Washington State specializes in high-quality work boats made out of aluminum. The D2676 LE443 is designed for light duty commercial operation and generates an output of 537 kW (730 HP) at 2,300 rpm with a ...

D2676 Engine description Characteristics nnCylinders and arrangement: 6 cylinders in-line nnOperation mode: 4-stroke diesel engine, watercooled nnTurbocharging: Turbocharger with charge air intercooler and wastegate nnNumber of valves: 4 valves per cylinder nnFuel system: Common rail injection with high pressure pump nnEngine block: High-strength casting with integrated oil and water ducts

Engine description - MAN Rollo

To create an engine with a minimum 500 hp for use in a powerful standard tractor without articulated steering that complies with Tier 4 final and EU Stage IV exhaust emissions standards, the engineers at MAN based their designs on the D2676 power train for trucks, adapting this to meet the requirements of a tractor.

MAN D26 Fendt engine | Interesting Facts | MAN Engines

The MAN diesel engine range from 440hp to 1900hp are suitable for both commercial and pleasure craft applications. PME group are proud to represent MAN in the UK - a partnership that provides quality product and service and is renowned for being innovative, progressive and reliable.
