Silverbolt's character is defined by his extreme fear of heights and by his refusal to bow to it. He constantly struggles to project the image of a brave, determined soldier to hide his fear from others. Optimus Prime named him leader of the Aerialbots in the hopes that worrying about them would give him something else to focus on besides his own phobia.

The core of this plan was [Esper Ability—Rebirth]. This was an ability that could only ever be used once, giving the user a second life. It was not a pure soul-type Esper Ability but was related to the High Dimensional Information Form. Of course, the effect of it was not as simple as simply splitting up his soul.

Grey's Anatomy has taken several chances throughout its run from emotional, heart-wrenching storylines to its lesser loved musical episode. Overall, nothing has stopped Grey's Anatomy's continuing success. The characters are too dynamic, and the storylines too emotional for the series to just conclude. This is a show where the least favorite characters can become the most loved character.
