My old Fluke meter was 30 years old and it still worked well. The case shattered and I was unable to purchase case parts from Fluke as it was so old. This new Fluke 87 V is an excellent meter. I love all of the features of the meter and the backlit display. For me it is a perfect meter with all of the features I need.

These meters may be quite cheap, but keep in mind that a vintage (say, 50-year old) meter may itself require restoration, like any other old device. The next photo shows my Triplet 630-NA meter, a \$20 swap meet find: If I were just starting out, I'd buy a new multimeter: something more modern than the Triplet and less pricey than the Fluke.
