Technical documentation refers to any document that explains the use, functionality, creation, or architecture of a product. Think of it as a nuts-and-bolts “ how to ” guide for your users, new hires, administrators, and anyone else who needs to know how your product works. But while that sounds pretty straightforward, the results rarely are.

Manual drafting techniques typically involve drawing different line weights to represent different items. Different line weights can be created by using a different size mechanical pencil lead, or a different size of technical drawing pen. Exterior walls are typically drawn on floor plans and sections with heavy, solid lines.
