The Road To Zero Landfill  
In Teton County, as in other  
communities with the goal of  
zero waste, it's important  
to understand that "zero" is  
an ideal. Achieving this  
ideal involves incremental  
goals with measurable  
targets. The Teton County  
Road to Zero Waste Plan  
identifies the initial goal  
of 60 percent waste  
diversion from landfill or  
incineration by the year  
2030.

Road to Zero Waste - How Do You RRR

Since July 2018, this high tech machine has diverted 9500 kg of organic waste and is saving the college from trucking leftovers twice a week to a landfill that is over one hour away. "This food waste composting technology is the milestone in making Zero Waste Campus", quoted by the Dean, College of Agriculture, Pune.

...

When companies talk about  
Zero Waste, they often tend  
to focus on Zero  
Landfill. The former approach  
is more holistic in nature.  
It supports the redesign of  
resource life cycles so that  
the maximum value of those  
resources is maintained, and  
so that disposal of  
resources is eliminated.

A zero landfill initiative has a single, finite goal: to divert 100 percent of industrial materials from local landfills. A zero landfill initiative may consider recycling a satisfactory solution for non-product outputs and stop there without exploring options that are higher on the waste solutions hierarchy. The zero-waste

Zero Waste: Teton County ...

What Does Zero Waste To landfill Status Mean? It sounds impossible, but zero landfill is just that: zero waste goes to a landfill or incinerator. Technically, the Zero Waste International Alliance (ZWIA) guideline is that a business must reduce their waste's impact to landfills, incinerators and the environment by 90% or more. Meaning, as much as 10% of their waste may still be disposed of by traditional means.
