The Operateur is a CNC control that was totally developed by Amada - Promecam. It controls all aspects of the HFB press brake yet it is simple to use and it is aesthetically and ergonomically designed. This control includes an integrated maintenance program that can be accessed from the PC through a DNC cable.

~~Press brake - AMADA~~

AMADA PROMECAM has succeeded in cancelling out the effects of deflection : by using centralthrust. On a PROMECAM ITS or ITPS Pressbrake, the lower beam does the work, through the action of cylinders placed centrally in the lower beam.
