Digital marketing is the component of marketing that utilizes internet and online based digital technologies such as desktop computers, mobile phones and other digital media and platforms to promote products and services. Its development during the 1990s and 2000s, changed the way brands and businesses use technology for marketing. As digital platforms became increasingly incorporated into ...

Research referenced within the article was between the years 1992-2008; mentioning the need for further research (Oftedal et al, 2010). A purpose for an article is to generalise there aims, informing subject under study stating what is likely to be achievable from the study; Polit and beck (2012) emphasis this being an importance.
